

Unrestricted inside diameter in bends or axial compression is only available by using Neofab-2 or Silfab-2. Other flexible hoses create restricted inside diameter in bends or axial compression.

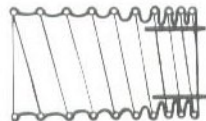

NEOFAB 2
and SILFAB 2
FULL ID when
hose is axially
compressed

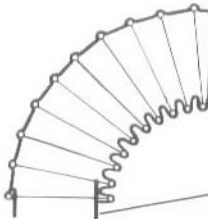

NEOFAB 2
and
SILFAB 2

FULL ID when
hose is bent

OTHER
HOSES
RESTRICTED
ID when hose
is axially
compressed

Most other
lightweight,
flexible hose
types
including
SILFAB 1 and
NEOFAB 1

RESTRICTED
ID when hose
is bent
